# WR1 PRODUCT OVERVIEW

# Waste & Recycling 1.

The worlds most advanced environmental, waste management and recycling software, suitable for small, midsize and large enterprises.

- Waste & Recycling One (WR1) is a software solution that standardises, integrates, simplifies, and automates all your waste and recycling processes, to create efficiencies throughout the business.
- The software has been engineered in cooperation with the waste and recycling industry since 2005. Operational business processes and workflows have been carefully designed to meet the industries requirements.
- From waste collection to recycling and selling materials, WR1 delivers instant control and complete visibility across your entire waste management and recycling operations.

# WR1 Process Flow.

WR1 delivers instant control & complete visibility across operations for businesses operating in waste, recycling & environmental sectors.

# Technology Stack.

WR1 is a world-leading, integrated software solution with preconfigured waste operations & recycling materials business processes.

- Integrated business process in a single solution, using the same data for accuracy, compliance and reporting.
- Automated tasks, activities, processes and master data control over integrated native mobile and web apps.
- Instant control and complete visibility across your entire waste management and recycling operations.

- A suite of mobile, web and IoT apps to increase interaction, enhance workflow, useability, engagement & information.
- SAP for all back office finance and accounting. Delivering control, governance, compliance and analytics.
- Amazon Web Services (AWS) provides world leading cloud computing and storage services for WR1.

# WR1 Core Benefits.

Waste & Recycling One is built to encompass all industry functions, to ensure complete coverage.

## True Integration

An end to interfacing. Many waste management and recycling companies use multiple applications with multiple data sources that don't talk to each other. This brings challenges such as problems and delays in managing and understanding what's really going on across your business. Waste and recycling one solves this problem by providing essential and comprehensive integration.

## Compliant Reporting

WR1 ensures your waste and recycling management processes are legal, compliant and easy to report on. Waste and recycling companies need to report on so many different areas to internal and governmental bodies. We've designed waste and recycling one so that you can quickly generate the reports needed, maintaining accuracy to ensure confidence and provide clear compliance reporting.

## Accurate Data

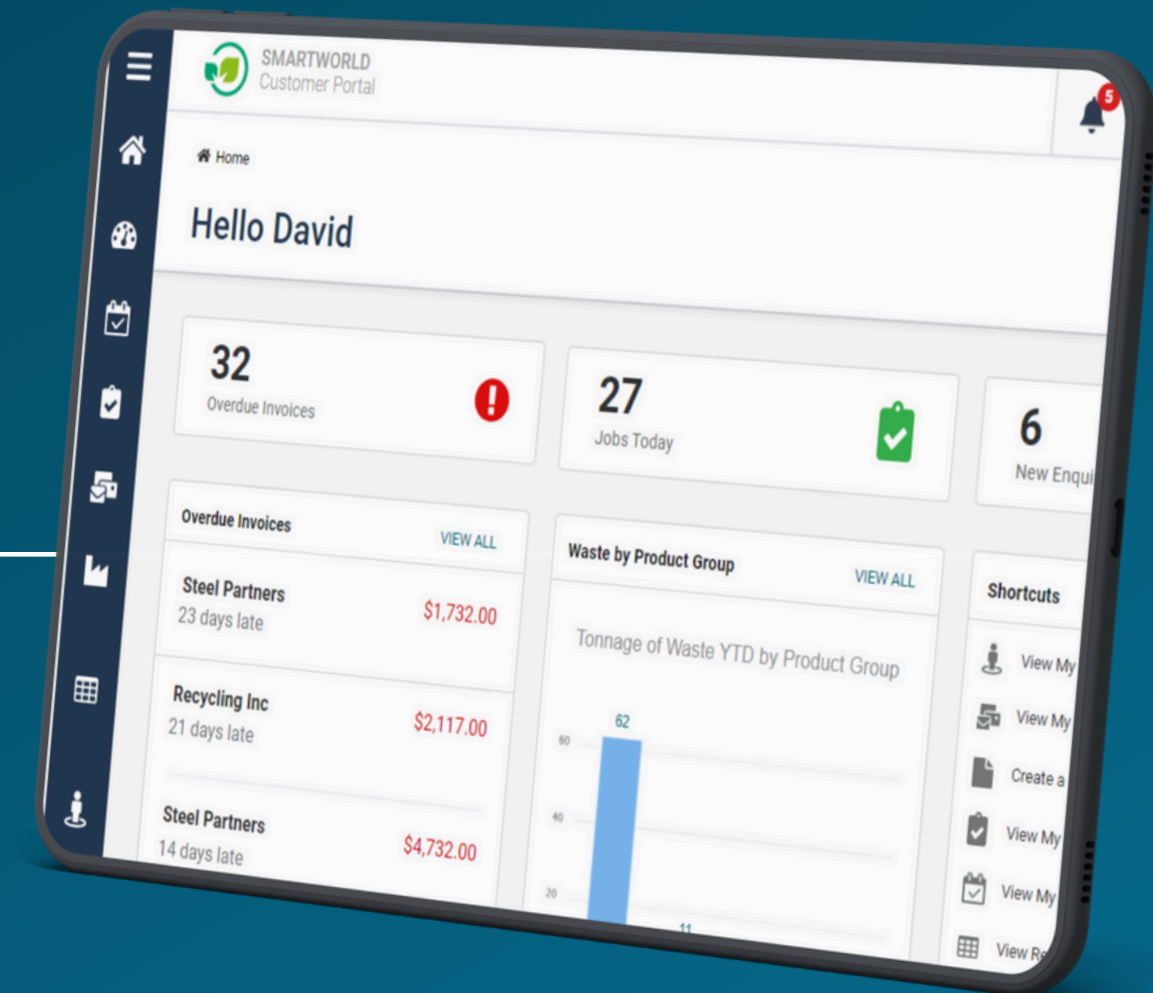

WR1 has been designed to handle the complexity of the sector, providing business intelligence you trust. Whole business reporting and reliable Business Intelligence (BI) empowers your organization with accurate, real-time data to help inform their decisions and aid operational and business planning. Using world-leading SAP technology and the advanced analytical tools, you can now have BI that you completely trust.

## Operational Efficiency

The integrated nature of WR1 delivers huge increases in business and operational efficiency. As a measure of how profitable your company is, your Operational Efficiency is crucial to strong business performance. With our extensive experience in waste management and recycling, our software solution has been designed to drive improvements across the organisation, leading to better Operational Efficiency.
